

### Shear Beam Load Cell

- Rated capacities of 250 to 20,000 pounds, 125 to 10,000kg
- "Thru" or "threaded" load hole configurations
- Low sensitivity to axial loads
- Low profile (ultra low available in 1000 to 2500 pound ranges)
- *Sensorgage™* sealed to IP67 standards
- Factory Mutual System Approved for Classes I, II, III; Divisions 1 and 2; Groups A through G. Also, non-incendive ratings (No barriers!).
- Trade certified for NTEP Class III: 5000d, IIII: 10000d and OIML R-60 3000d available

#### DESCRIPTION

Model 65023 is a low profile shear beam load cell designed for high accuracy platform scales, pallet scales and process weighing applications.

It has high immunity to shock or side loading and is available in 2 or 3mV/V sensitivity. Approved to OIML, NTEP standards. For hazardous environments this load cell is available with EEx ia IIC T6 level of European approval.

Nickel plating and full environmental sealing assures long term reliability. A stainless steel option is available for the lb versions for use in harsh or corrosive environments.

The two additional sense wires feed back the voltage reaching the load cell. Complete compensation of changes in lead resistance due to temperature change and/or cable extension is achieved by feeding this voltage into the appropriate electronics.

#### FEATURES

#### OPTIONAL FEATURES

- Stainless steel versions available
- 65059 TWA companion weighing assemblies available
- 65082 Tantalum companion weigh modules available

#### APPLICATIONS

- Floor scales
- Tank weighing
- Bin and hopper weighing

**OUTLINE DIMENSIONS** in inches [millimeters]

4 CONDUCTOR; 22 AWG. CABLE, SHIELDED & JACKETED; 20 FOOT STANDARD LENGTH OR PER SALES ORDER.
